To-Night's Benefit.

The Forepaugh family take a benefit this evening. They have been made the victims of rascality as well as misfortune, and there is a general desire on the part of the citizens of Carson to see them once more on their feet. A very interesting bill has been arranged and the tickets are selling rapidly. They ought to have a full house.

—W. H. Minor of Willow Creek, Humboldt county, reports the streams lower up that way than the oldest white man in the country ever before saw them. In Willow Creek, where the Thompson mill is being built, there is usually thirty inches of water at this season of the year, and now there is not more than eight inches.

—Thomas Nast's brush, enlisted in behalf of Harrison and Morton, will be worth thousands of votes to the Republican party.

—Maxwell the murderer of Preller, was hung in St. Louis yesterday together with Landgraf who murdered his sweetheart.

—Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood. No other preparation so well meets this want. It increases the appetite and rejuvenates the whole system. Its record, for forty years, is one of constant triumph over disease.

THE STATE FAIR.

Great Activity Being Displayed on the Grounds.

The Reno Journal has the following:

Activity is now the order of the day, at, and about Agricultural Park.

The race track is being harrowed and thoroughly overhauled, carts are employed in hauling material to fill up low places.

The grand stand, stables and all buildings about the place are being put in first class order.

Water has been brought through the pipes, tanks filled, and the whole place is assuming a Fair-like appearance.

Our racing men are preparing for determined, though friendly contests for victory, and the managers of the Park are putting the grounds in fine order for their reception.

We are pleased to note that our farmers are preparing to make fine displays of their products, and we are looking for better exhibits this year than ever before. Stock raisers will be unusually well represented on the grounds.

Our mechanics will be in the field for prizes, and some rare workmanship may be expected.

The mining people are preparing to make exhibits of ores and minerals of different kinds, showing to the world that we have not only the finest products of soil, but the richest mineral ores; that we cannot only produce all cereals, fruits and vegetables necessary to the use of man, but we can produce gold for all commercial purposes.

The ladies throughout the county are putting up jellies, jams, pickles and a great variety of articles which they so well know how to manipulate.

Our young ladies are preparing to make rare displays of their own handiwork in the way of spreads, tidies, embroideries and articles of fancy work.

Also our young misses will show to the world that they belong to the rising generation, and are progressive.

They will display some rare art work, in the way of painting, drawings and embroidery.

We are glad the people throughout the State are feeling so much interest.

They seem determined to put their shoulders to the wheel and make the Fair of 1888 a grand success.

Indian Hop Pickers.

This is from the Sacramento Record-Union:

Superintendent Mackay, of the Rancho del Paso, is among those who talk against the employment of the Chinese and who practices what he preaches.

Last year he had his hops picked by Nevada Indians, and they pleased him so well that in the future the Chinese cannot get employment in his hop fields.

Captain John a Pinte chief, arrived one day last week with fifty of his tribe (bucks and squaws,) and others will follow as soon as their services are required.

Some of the men were on the street yesterday.

They are broad shouldered, and most of them over six feet high.

Captain John is very anxious to have the Directors of the State Agricultural Society offer a purse for a race.

The Indians spend all their money for bread and watermelons.

Card to the Public.

We desire before leaving the City of Carson, to express our thanks to the kind friends who, during our stay here, have interested themselves in our behalf.

We were so unfortunate as to be the victims of a very hard run of luck, which we could have conquered had it not been for the treachery of men we were in partnership with and supposed were honorable gentlemen.

The citizens of Carson have very generously tendered us a benefit which takes place at the Old Theater this evening.

We will endeavor to give a performance such as is merited by the generous treatment we have received here, and trust that all our friends will be present where we can personally thank them for their kindness.

Gratefully yours,
THE FOREPAUGH FAMILY.

Emerald Bay.

Dr. Kirby is making a beautiful resort of Emerald Bay. Of all the locations on the Lake there is none to surpass this. He has a point jutting out into the Lake, a mineral spring, the finest cascade on the Coast, a dashing, foaming trout creek, a Bay known all over the country, and a splendid landing.

The only island in the Lake is in Emerald Bay.

He has erected a number of cottages, and has been full to overflowing ever since he opened.

The creek has been stocked with trout, and Emerald Bay is a great fishing resort.

Another feature of his place is a 700-foot fall of water, which he intends to utilize by piping it down to make fountains.

He will add some cottages next year and make it a leading pleasure resort.

A Cloud Emblem.

Clouds take upon themselves curious forms sometimes, but the most distinct and perfect form ever represented by the fleecy substance was seen here yesterday. It was the outlines of an American eagle, almost perfect in shape and from the Republican office it appeared to be hovering over the flag pole on the plaza from which the flag was flying at half-mast, in memory of the lamented Sheridan. It was a curious and patriotic sight and was witnessed and admired by many passers-by. It remained in position for half an hour before the wind dissipated the cloud.—Truckee Republican.

A Case for Charity.

Mrs. O. Nay, who was burned out a few days ago, lost all her household effects, and what little money she had saved up was stolen during the progress of the fire.

She has been compelled to borrow a stove and bed of the neighbors and sleep out of doors. She has several young children, and is in a very destitute condition. Her case appeals strongly to public sympathy, and a subscription should be raised for her immediate necessities.

Sherrard Loses.

Yesterday the suit to decide who owned the ring horses of the circus was decided against Sherrard. It appears that he held a bill of sale of the stock, but a man named Reese belonging to the company showed another one dated a week earlier.

Forepaugh stated that he informed Sherrard of the first bill of sale when he gave him the second. Sherrard will appeal the case.

Rather Awkward.

St. Paul, August 7th.—A Bismarck correspondent to the Pioneer Press writes: An inside man from Standing Rock says the Indians have resolved, in secret council, to kill the first Indian that signs the treaty.

This troublesome resolution makes it awkward for the first Indian to sign. He credits the Indians' firm position to the bad influence of squaw-men and half breeds.

Death of John Kitzmeyer.

Died in Germania, Penn., July 23d, John Kitzmeyer, 77 years of age. Mr. Kitzmeyer was the father of Dan and Geo. Kitzmeyer of this city. Death was caused by the breaking of his neck, by a fall, from a load of hay.
